

RAHUL DHAMECHA

TECHNICAL LEAD | LEAD ENGINEER | FULL-STACK TECHNOLOGY LEADER

Phone: +91-999-888-4130 • **Email:** errahuldhamecha@gmail.com • **Experience:** 14+ years • **Leadership:** 5 years | teams of 5–15

PROFESSIONAL SUMMARY

Technology Leader with 14+ years of experience in web technologies and MEAN/MERN stack development, with 5 years of experience leading and mentoring teams of 5–15 members. Experienced in end-to-end ownership across architecture, development, deployment and support, with a strong focus on scalable applications, technical strategy, engineering standards and delivery. Hands-on expertise across React.js, Angular, Node.js, Express.js, JavaScript/TypeScript, PHP, REST APIs, SQL/NoSQL databases, AWS and DevOps. Proven experience working with clients, product managers, QA, DevOps and cross-functional teams to translate business requirements into practical technical solutions.

CORE COMPETENCIES

Technical Leadership	Architecture & System Design
Team Leadership & Mentoring	Stakeholder & Client Collaboration
Agile / Scrum Delivery	Code Review & Engineering Standards
REST APIs & Microservices	Cloud & DevOps
Full-Stack Web Development	Performance & Scalability
Technical Planning & Estimation	Cross-Functional Delivery

TECHNICAL SKILLS

Frontend: React.js, Angular, JavaScript, TypeScript, HTML5, CSS, SCSS/LESS, Material UI, Bootstrap, WebSocket
Backend: Node.js, Express.js, Python, PHP, RESTful APIs, Django, FastAPI
Data: MongoDB, MySQL, SQL/NoSQL, Redis, CouchDB, PostgreSQL
Cloud / DevOps: AWS Services, DevOps, Git, Bitbucket, CI/CD, EC2, IAM, SQS, SNS, aloudWatch, Lambda, Dynamodb, Aurora, ECS, ECR, EKS, SSM, Route53
Engineering: Code Review, Agile Methodology, JIRA, Sprint Planning, Technical Estimation, SDLC, Team Management, Scrum
Architecture: MEAN/MERN, MVC/MV* Architecture, Microservices, Scalable Application Design, Distributed system, CMS

PROFESSIONAL EXPERIENCE

Synechron Technologies Pvt. Ltd. | Pune, Maharashtra, India

Lead of Technology | 14 May 2025 – Present

- Defined and drove technology strategy, architecture and roadmap, aligning technical direction with business objectives and long-term scalability goals.
- Led cross-functional engineering teams, providing technical leadership, mentoring developers, conducting performance reviews and fostering continuous improvement.
- Architected and delivered high-performance, secure and scalable applications using modern technologies, cloud platforms and microservices-based architectures.
- Collaborated with stakeholders, clients and product teams to translate business requirements into technical solutions, support project delivery and mitigate technical risks.
- Established engineering practices including code reviews, CI/CD, automated testing, security standards and DevOps processes to improve development efficiency and product quality.

Randstad Digital | Bangalore, Karnataka, India

Senior Associate | 11 Mar 2025 – 14 May 2025

- Led design and development of scalable MERN stack applications, driving architecture decisions, code quality standards and engineering best practices.
- Managed and mentored developers, provided technical guidance, conducted code reviews and supported timely delivery of high-quality software solutions.
- Designed and optimized RESTful APIs, database schemas and microservices with focus on application performance, scalability and reliability.
- Collaborated with clients, product managers and cross-functional teams on requirements, effort estimation and delivery of business-critical features from conception to production.

Publicis: Resources | Pune, Maharashtra, India

Team/Tech Lead (Remote) | 26 Oct 2023 – 31 Jan 2025

- Led a team of 15 members and provided technical guidance and support to team members and stakeholders.
- Participated in project management using Agile methodology, including task delegation, delivery coordination and issue resolution.
- Established project specifications, technical direction and end goals; oversaw software quality and system modifications.
- Collaborated with DevOps and Project Managers to keep engineering execution aligned with predefined goals.
- Worked with QA teams on test cases, test plans and procedures.

Infostretch | Gujarat, Ahmedabad

Tech / Team Lead – 5B (Hybrid) | 01 Nov 2021 – 19 Oct 2023

- Provided technical guidance across design and development activities and supported engineers throughout the SDLC.
- Participated in design reviews, recommended improvements and developed technical solutions aligned with business requirements.
- Provided training and mentoring to engineers and supported planning, prioritization and execution of work within deadlines.
- Recommended technologies and engineering approaches to improve quality and productivity; collaborated with QA on test planning and procedures.
- Prepared business presentations for management and worked across engineering stakeholders to communicate technical direction and progress.

Mobiquity Inc | Gujarat, Ahmedabad

Principal Engineer | 21 Jun 2018 – 25 Oct 2021

- Worked as a Principal Engineer across web technologies, collaborating with teams to design effective software solutions.
- Participated in story grooming, sprint planning and refinement while working closely with frontend/backend teams and project management.
- Supported project communication, issue resolution and QA activities throughout the software development lifecycle.

Sooryen Technologies Pvt Ltd / Encora | Gujarat, Ahmedabad

Full Stack Engineer | 21 Dec 2017 – 15 Jun 2018

- Developed full-stack web applications using MEAN/MERN and PHP stacks with MVC/MV* architecture.
- Designed and implemented RESTful APIs, relational databases such as MySQL and NoSQL databases including MongoDB/CouchDB.
- Developed frontend applications using AngularJS, Vue.js, React.js, JavaScript, jQuery, Bootstrap and Materialize CSS.

Volansys Technologies Pvt Ltd | Gujarat, Ahmedabad

Full Stack Engineer | 24 Mar 2015 – 21 Jul 2017

- Developed MEAN/MERN stack applications across frontend and backend processes.
- Participated in code reviews, sprint planning, project planning and cross-team collaboration.
- Worked with product managers, designers and stakeholders to understand requirements and deliver solutions.
- Debugged application issues, resolved performance problems and contributed to automated testing strategies.

Pronix Technologies Pvt Ltd | Gujarat, Ahmedabad

Sr. Software Engineer | 11 Oct 2014 – 28 Feb 2015

- Contributed as a Senior Software Engineer across multiple projects, improving application performance and usability.
- Performed root-cause analysis, implemented solutions and followed clean, maintainable and efficient coding practices.
- Managed and guided PHP developers through task assignment, code reviews and quality control.
- Evaluated and recommended PHP libraries, frameworks and technologies to improve project development.

IndiaNic Infotech Ltd | Gujarat, Ahmedabad

Software Engineer | 10 Dec 2012 – 31 Jul 2014

- Developed and executed plans to implement application features and coordinated with leads and project managers to meet delivery deadlines.
- Collaborated with design teams to implement user interfaces and deliver features with focus on quality.

Amar Infotech Pvt Ltd | Gujarat, Ahmedabad

PHP Developer | 19 Nov 2011 – 31 Oct 2012

- Developed web applications and enhanced existing functionality using PHP frameworks including Magento, CodeIgniter, CakePHP and Symfony.
- Worked with SQL databases and coordinated with design and management teams for on-time delivery with fewer defects.

EDUCATION & CERTIFICATION

Master of Computer Application (MCA) | S.V.I.C.S Kadi, North Gujarat University | 2007–2010

AWS Associate Developer
